Michelle Joab (UM2),  
Nicolas Dunand (UNIL)

Workshop 2: How to model  
Quality for e-learning,  
links with standards

Experience-based Quality in European ODL  
**E-QUALITY**

**FINAL SEMINAR 21.-22.9.2006  
SZCZECIN, POLAND**

Experience-based Quality in European ODL

**E-QUALITY**

## Programme

- Introduction (M. Joab, UM2)
- A synthetic presentation of e-learning standards The tools to measure compliance to standards (N. Dunand, UNIL)
- Course description metadata (CDM): A relevant standard for technology-supported learning (M. Pezeril, Pôle universitaire de Montpellier)
- The IMS Learning Design specification (O. Auzende, Paris 2)
- How to model quality in e-learning processes ?  
how to translate UML models into IMS LD ?  
(M. Joab, UM2)
- Discussion

Education and Culture

**Socrates**

Experience-based Quality in European ODL

**E-QUALITY**

## Hot topics !

- How standards can contribute to quality implementation?
- How quality concepts are modelled with educational modelling languages?
- How quality concepts are linked to standards (IMS Learning design, LOM, SCORM)?
- How quality and standards could be integrated in an effective way?

Education and Culture
